19. Dutch East Indies: Flores Endeh (Residency or Department).
 1920. 1:50,000 Topogr. Dienst. Wettevreden.
 This is an outline map of the Endeh Residency, showing cliffs, towns, roads, streams, telephone lines, political boundaries, etc., also contour or form lines. Character of terrain not shown, nor is nature of coast indicated except where cliffing.
20. Dutch East Indies: Flores Island. North and West Manggarai.
 1921. 1:50,000. (Incomplete). Topogr. Inrichting.
 This map has contour (?) or form (?) lines similar to the one described immediately above.
21. Dutch East Indies, Flores Island. Maomere.
 1922. Four sheets. 1:50,000. Topogr. Dienst, Weltevreden.
 This outline map of the Maomere Residency or Department of Flores Island covers all except a small portion of the Netherlands Indies part of the island. It has no contour or form lines but shows individual peaks, in most cases with elevations in meters. Otherwise it is similar to maps described above.
22. Dutch East Indies: Java and Madoera.
 1923. Netherlands Topogr. Inrichting, Batavia:
 This map shows principal roads, railways, towns and political boundaries. Hypsometry is shown in two colors, but only impressionistically, no limit being indicated for the colors. Character of the coast is not indicated.
23. Dutch East Indies: Flores (Oost Maoemere).
 1929. (Negative photostat). 1:150,000.
 This map of the Kringa and Werang District in Maoemere Residency is similar to maps described above except that all peaks are surrounded by contour or form lines giving a better delineation of the terrain. Roads have apparently been brought up-to-date, since some are shown that are not found on earlier map.
24. Dutch East Indies: Java and Madoera. 1925-1940.
 1940. General map. 10 sheets; 2 sets. 1:250,000 N.E.I. Topogr. dienst.
 This is a very detailed contoured map showing every feature of importance. All except the two W. sheets show hypsometry in 4 to 14 colors.
